Impact of COVID-19

Content Connections Context

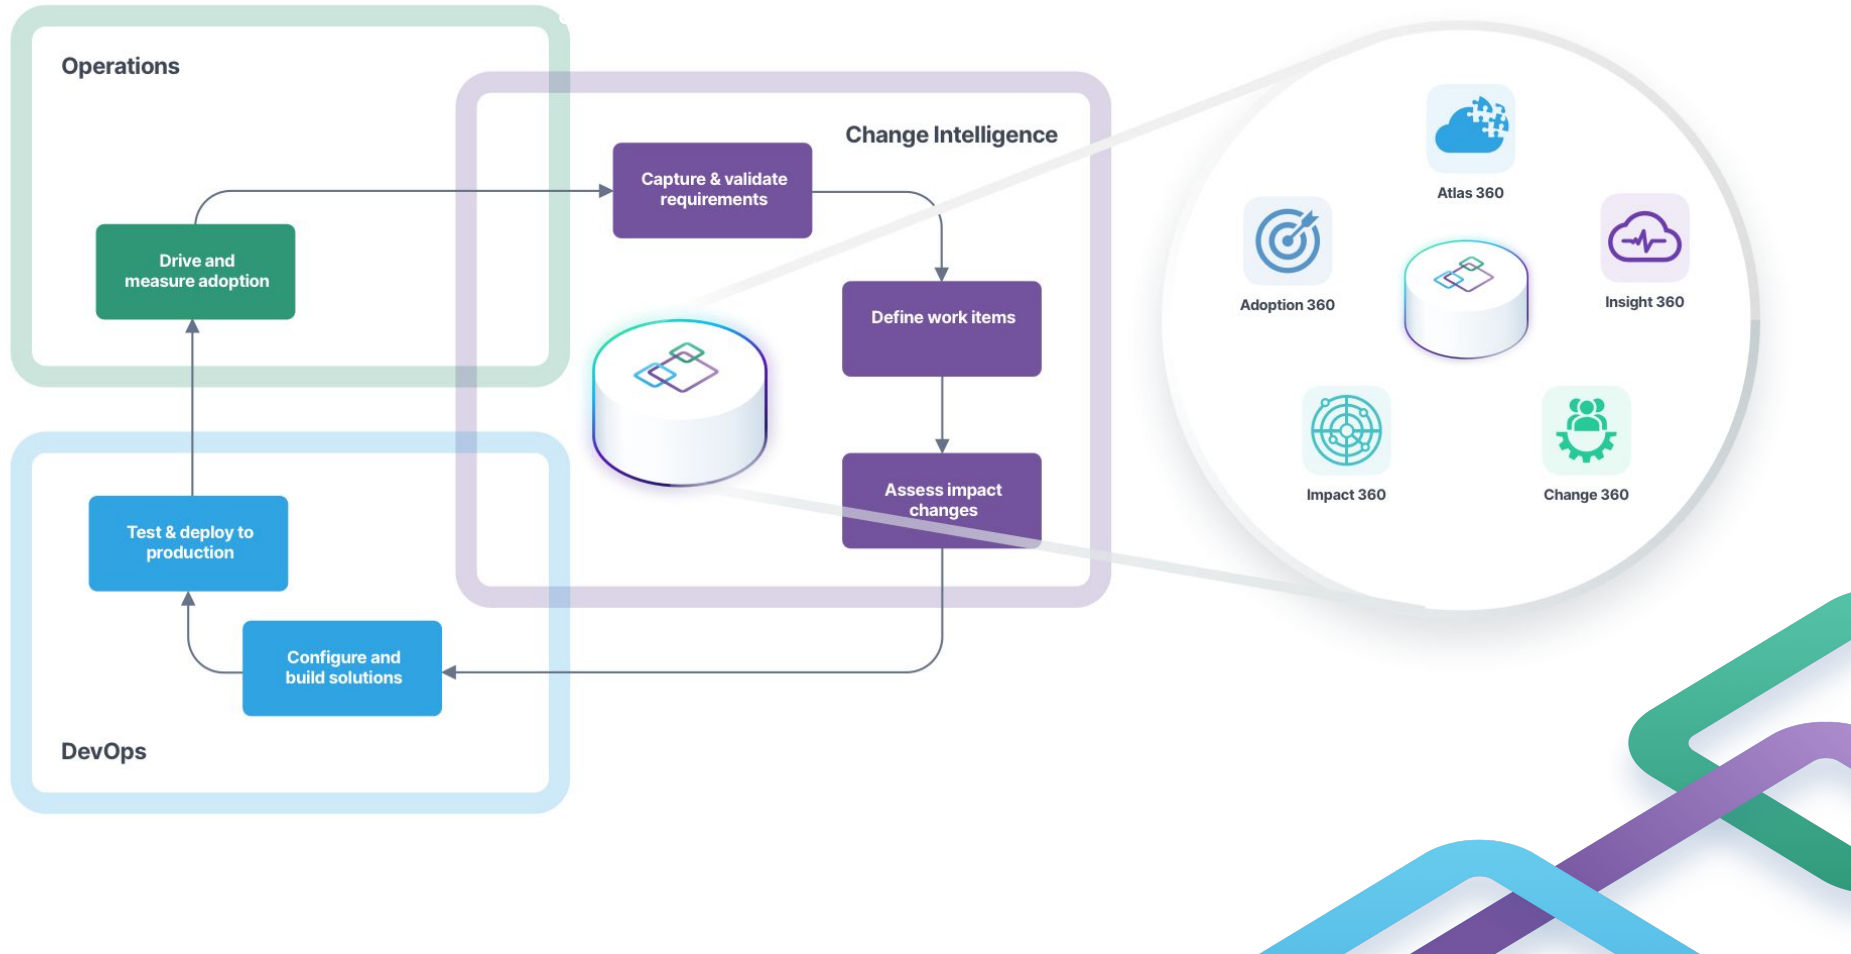

Every company is a technology company

The faster we go,
the farther we go in
the wrong direction

Business Analysis documentation drives lifecycle

Business Analysis documentation: content

1

User Feedback &
Change initiatives

2

Requirements

3

Process maps

5

Systems
metadata

4

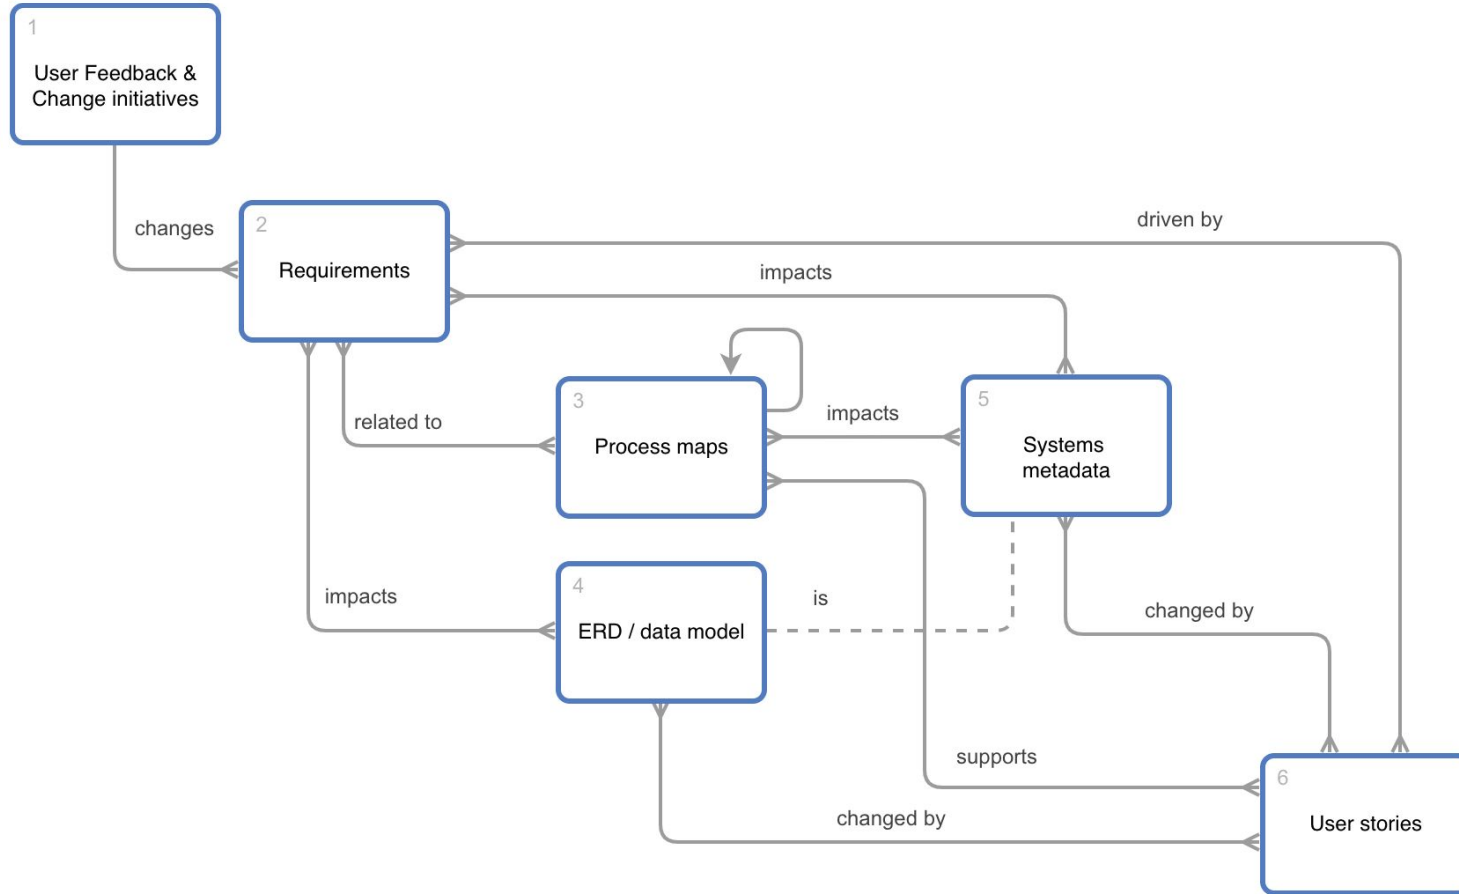

ERD / data model

6

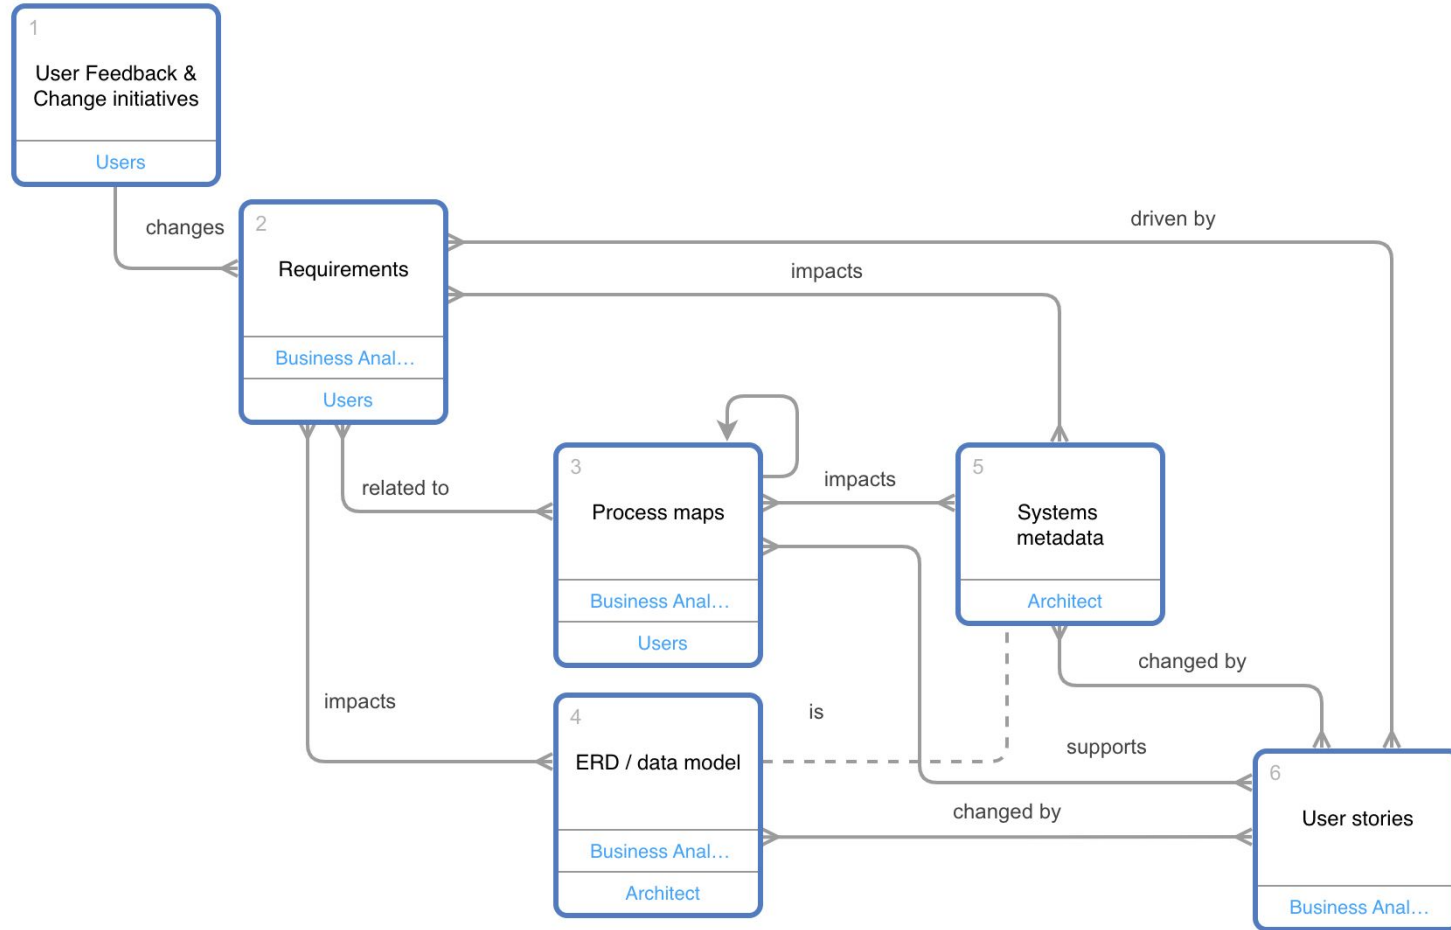

User stories

Business Analysis documentation: connections

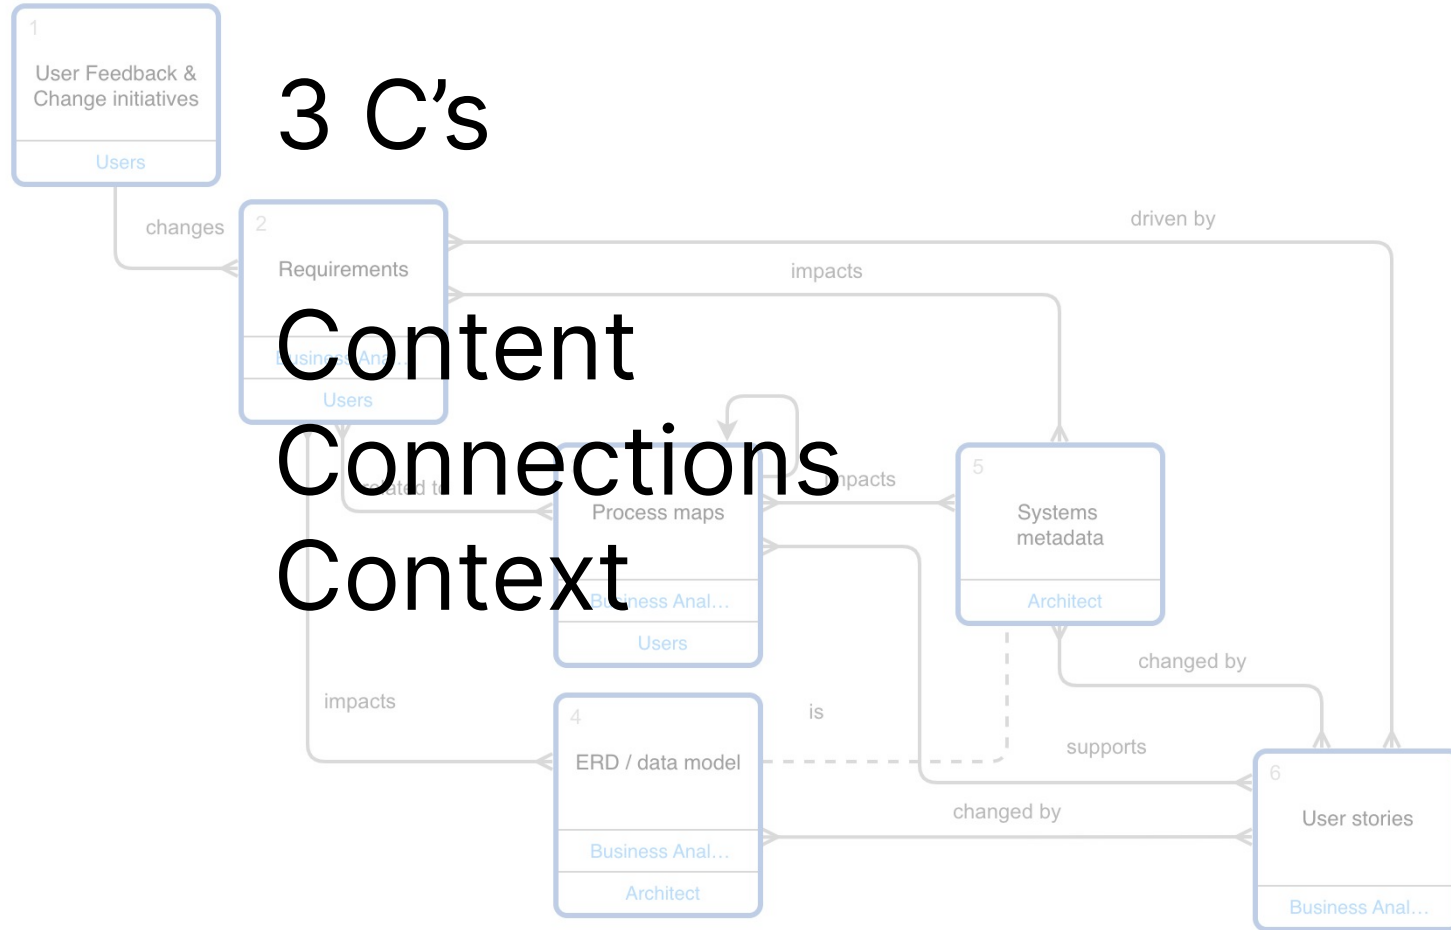

Business Analysis documentation: context

Business Analysis documentation

3 C's

Content Connections Context

A worked example

Key takeaways

Every company is technology company

Every BA need to think like citizen developer

Documentation accelerates not slows change

Content, Connections, Context

Documentation Matters

10 years: consulting
20 years: Salesforce
30 years: BA & change
